European quality at the very lowest prices!

Dorema. The best choice.

Innovative design and advanced technology

A Caravanning holiday has become the perfect way to recharge your energy, enjoying all aspects of this unique community spirit, alone, together or as a family. Whether you are an avid tourer or someone who is seasonally sited Dorema have it covered with our latest range of awnings. At Dorema our aim for more than 30 years has been to make this time as easy and stress free as possible which will further enhance the time whilst you are on holiday. Our success has been achieved through a policy of innovation along with the use of the very latest techniques and European quality materials.

We believe that from your first contact with one of our qualified Dorema dealers, along with the complete aftersales and customer service provided, purchasing a Dorema awning is the right choice for you.

Your holiday starts here!

Sincerely,

A handwritten signature in black ink, appearing to be 'Darren Butlin'.

DOREMA AWNING CATEGORY TABLE

Categorises the awning according to the intended use

This new table categorises the awning according to its intended use. At the same time, these categories are also listed next to the model within this brochure.

TYPE	WINTER	SEASONAL	TOURING	LIGHTWEIGHT
USAGE	Awning suitable for Year-round use. (9-12 months per year)	Awning suitable for constant use and longer periods	Awning suitable for Long Touring holidays and short breaks	Awning suitable for short holidays and long weekends
USAGE PERIODS	Winter: (January-December)	Seasonal: (Constant use March-October)	Touring: (up to 8 weeks per year between Mar-Sept)	Lightweight: (Short Holidays and weekends April-Sept)

(Please note all Air Awnings should be monitored on a regular basis and can require additional inflation to maintain required air pressure)

DOREMA QUALITY-CERTIFICATE

- Dorema stands for quality and service.

- All StarCamp 2018/19 awnings are guaranteed for 1 year.

Computerised production technology

Part of our modern production facilities

Daytona 240, XL270 & XL300

The best for less

This fantastic value for money awning is now produced in 3 depths for 2019 (240 cm, 270 cm & 300 cm) and was voted by our dealers as the most popular touring awning in the UK. In the production of the Daytona the latest Ten Cate All Season touring quality material is used. This material is extremely strong, easy to clean, colourfast and will give super performance in all weather conditions. The new Daytona is fitted with a fly screen panel on the right hand side.

Magnum Air Force

The next generation of inflatable awnings

The 'Magnum Air Force' range is the very latest designed multifunctional Air Awning by StarCamp which allows each camper to use in multiple combinations to suit their individual need and is perfect for those short breaks. You can start with the 260cm base model on its own for an overnight stay or there is also the option to zip in 270cm metre Additional Extension (AddEx) left and right which can then extend the 260 base model to 530cm left or right or 800cm if left and right AddEx are both fitted. The same AddEx's can also be fitted to the 390 Base which increases size to 660cm left or right or even an eye watering 930cm if both AddEx's are fitted allowing the camper additional space for those unexpected visitors. The versatility of this new Air awning is that it gives the ideal solution to the camper who requires a different awning for different uses at different times, making it the perfect choice.

Magnum Air Force 390

Magnum Air Force All Season

Due to the success of the StarCamp lightweight version Dorema have now produced the Magnum Airforce in the latest TenCate DormaTex materials. This new specification allows the awning to be used throughout the Seasons and can be seasonally sited if required. The Easy Air Frame system (EAF) and one-valve inflation point allows the awning to be erected with consummate ease. This new model is produced in Europe in our own modern facilities using the latest materials and technology available. The Additional Extensions (Add Ex's) make this the most versatile awning on the market. A base model of 260cm with 1 AddEx (Left or Right) will give you 530cm of space or 800cm if both are added. The same AddEx's can also be fitted to the 390 Base which increases size to 660cm left or right or even an eye watering 930cm if both AddEx's are fitted allowing the camper additional space for those unexpected visitors.

FEATURES

MAGNUM AIR FORCE & MAGNUM AIR FORCE ALL SEASON

Height: Designed to fit caravans from 235-255 cm in height

Sizes:

Starlon® Awning Carpet

FROM
59.-

NOW ALSO
AVAILABLE
IN 350 CM

Grey

Blue

Dorema has developed this user friendly carpet to ensure the optimal compatibility with your new awning. Starlon is produced in two attractive colours: Grey and Blue.

This quality carpet is suitable for weekend campers as well as the more enthusiastic permanent site camper. By adding a new environmental friendly ingredient to our exclusive designed weave structure, we have been able to make Starlon light in weight and incredibly strong. Yet, the texture is soft and comfortable especially when the little ones are running around in their bare feet. Accidental stains such as coffee or red wine are easily removed by using a damp cloth. Any stale smells from underneath the carpet are prevented due to the special breathable weave construction of Starlon carpets. Starlon is available in most sizes to suit your awning.

Compact to fold

Easy to clean

ALU Quick System frame

Fibre Tech Plus frame

- Ultra light
- New Easy clamp system
- Long life
- Very stable
- Easy to erect

Extra strong roof support poles ensure the frame is even more stable.

HIGH TECH
CONSTRUCTION

Complete frame

Not recommended for Seasonal sited Awnings

Fibre Tech Plus frame

The very latest in fibreglass frame technology, FIBRE TECH PLUS is a top quality woven fibreglass tube that is incredibly strong, easy to handle and simple to erect. The unique construction of the FIBRE TECH PLUS frame ensures maximum strength at all times.

ALU QUICK SYSTEM Frame

LIGHTWEIGHT
(about half the weight
of steel)

NO RUST (long life span)

28 MM ALUMINIUM
TUBING *
(the corner angles are made
from steel)

ULTRA
LIGHT

The ultra light aluminium EASYGRIP QUICK SYSTEM frame consists of only three major sections and three roof support poles. Each section contains a number of poles which are telescopic or are connected together with a spring system.

Not recommended for Seasonal sited Awnings

The very latest in advanced frame technology is now a standard feature on most new 2018 Dorema awnings that are supplied with steel or aluminium frames. With the new Dorema EasyGrip frame system erecting your awning is a simple and effortless process. Simply adjust the poles, press the clamp and hey presto your frame is tensioned with childlike simplicity, no effort or stress just a perfectly erected frame.

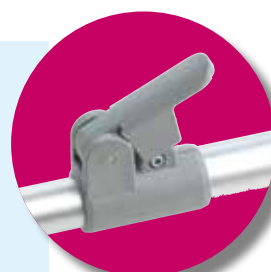

EASYGRIP FRAMES

EASYGRIP SPEED LOCK CLAMPS

EasyGrip speed lock clamps are now fitted as a standard on steel and aluminium frames for the following awnings:*

- | | | | | |
|----------------------|------------------------|---------------------|---------------------|----------------------|
| • Quattro - range | • Daytona XL270 | • Garda 240 | • President XL280 | • Mondial Sun Canopy |
| • Safari XL | • Daytona XL300 | • Garda 240 De Luxe | • President 250 | • Challenger |
| • Omega De Luxe | • Multi Nova | • Garda XL270 | • President XL300 | |
| • Mistral All Season | • Multi Nova Excellent | • Grande Octavia | • Royal 350 | |
| • Daytona 240 | • Madison Acrylic | • Octavia | • Royal 350 De Luxe | |

* Not standard on: Sun Canopies, Davos/Oslo Winter Porch Awnings and all Annexes

QUICK LOCK PADS

By using the Quick Lock Pads it is no longer necessary to screw eyelets onto the caravan. Now standard with all Dorema Awnings (Unless stated): Quick Lock Pads, Wheel Arch Cover, Awning Skirt, Frame Bag, Curtains, Ladder straps and Pegs.

Discovery Air

Next Generation Motorhome Annex

Discovery Air KlimaTex is the latest addition to the StarCamp collection for Motorhomes for the New season. This New model is made with the latest lightweight polyester fabric and is perfect for short breaks and Touring holidays. This luxurious lightweight motorhome awning with Easy Air Frame System (EAF) can be erected in minutes and can also be used as a freestanding awning. The Discovery Air is very versatile and attaches to the motorhome using a zipper in the tunnel that fits most motorhomes with connection height from 210 cm up to 270 cm.

FROM
649.-

QUALITY IS IN THE DETAILS

Ventilation

On most Dorema awnings there is a central net ventilation panel that can be closed with a zipped panel.

Awning Canopy

All new Dorema full awnings will be equipped with piping as standard to allow a Palma awning canopy to be fitted.

Double zip system

Create extra space with this smart new idea from Dorema. Our unique annex double zip system enables you to replace the side panel once the annex is fitted, this then enables you to create a handy extra storage area. This feature is only available on the new President XL280, Garda 240, Garda 240 De Luxe, Garda XL270, Octavia, President 250/XL300, Grande Octavia and Omega De Luxe.

Curtain Fixings

The high quality curtains slide on a sewn in plastic track.

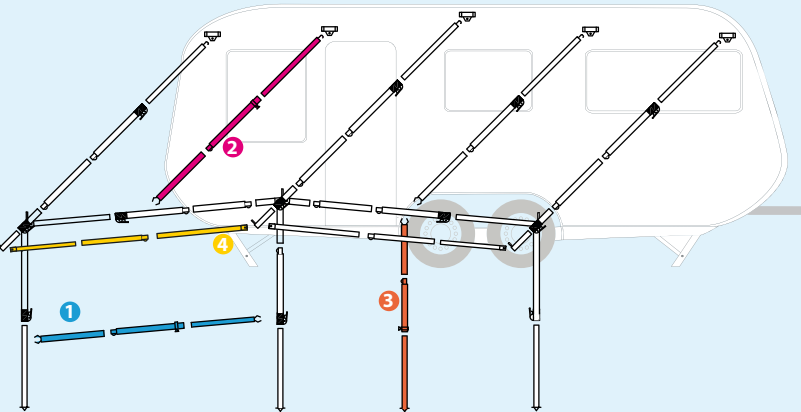

Covered Zips

Most Dorema awnings have covered zips in matching material for extra protection.

Multifunctional Draught Skirt

All Dorema awnings and sun canopies are equipped with our multifunctional draught skirt. Our special solution is also suitable for all aerodynamic caravan shapes.

22	1175 – 1200

HOW TO FIND OUT WHICH SIZE YOU NEED

Measure your caravan as shown in the picture. The measurement from ground to ground A-B-C can then be checked with the chart to give you your awning size. If you are not sure please contact your Dorema dealer for further advice.

Seasonal Caravanners please note:

Dorema strongly recommend that anyone seasonally siting their awnings should measure the caravan on the seasonal pitch prior to ordering their awning, as this can change the size required.

All measurements are in cm.
